Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner and the applicant's representative discussed the subparagraph of lines 11 and 12 in claim 8. The examiner noted that as presented the claim set forth that one of the pistons was in each of the end cover chambers. It was agreed that "each" should be deleted. Additionally, the Replacement Sheet of Fig. 1 was discussed. The examiner noted that the chambers (86, 88) were housing chambers and that therefore the label "END COVER CHAMBER" should be removed..
